PETITION

We, the undersigned, firmly believe that the proposed South Industrial Park Access Road connecting South Third Street or River Road and South Fifth Street would create an extremely dangerous traffic hazard at the intersection of the River Road primarily due to the limited visibility at that point.

We propose a new street be constructed extending Enterprise Ave. easterly to intersect with South Third Street. This would give better visibility from all directions and a safer intersection. Also, a more direct access between the industrial parks and benefit the two large agricultural businesses in that area.
