Wires constructed pursuant to this easement grant shall be not less than the minimum height/depth as required by the National Electrical Safety Code above/below the surface of the ground. So long as the wires are at such minimum height/depth Grantee shall have the exclusive right to the space occupied by said wires and such of the space beneath/under and on either side thereof as is reasonably necessary to provide reasonably safe isolation of the wires from contact by any persons or objects. The Grantee is also granted the right to cut or remove, from time to time, from said premises, or the premises owned by the Grantor adjoining the same on either side, any trees, limbs of trees, brush or other obstructions which interfere with constructing, reconstructing, maintaining, operating, repairing or the use of, or which in falling might touch the said line or lines.

The Grantor also grants to the Grantee the right of ingress and egress to said line or lines, over/under lands now owned by the Grantor, for the purpose of constructing, reconstructing, maintaining, operating, patrolling, repairing and removing said line or lines, and the Grantee agrees to pay to the Grantor or his tenants all damages done to the lands, fences, livestock or crops of the Grantor or his tenants, by the Grantee or its employees while constructing, reconstructing, patrolling or repairing said line or lines. If the parties do not agree such damages shall be determined by the Township Trustees acting as a Board of Arbitration in said matter.

The Grantee shall have the right of necessary access over and across the property of the Grantor to locate, lay out or perform other preliminary and preparatory operations before actual construction of said line or lines is commenced.

This agreement shall be binding upon the parties hereto, their heirs, successors, or assigns, and continue so long as Grantee or its successors and assigns shall desire to use said line or line for the above stated purposes.

Signed this 22ND day of FEBRUARY, 19 92.
