In furtherance of its obligations under the mitigation agreement, Applicant shall reimburse owner for the cost of fertilizer to appropriately restore fertility over the permanent and temporary easements to levels approximately the same as those found in similar soils located in adjacent, off right-of-way areas, as demonstrated by appropriate soil testing performed by a reputable, independent testing laboratory.

The easement rights sought and the resultant assessment of damages are subject to the requirements of Chapters 6B and 479A, Code of Iowa, as may be amended from time to time and 199 Iowa Administrative Code Chapter 9, so that damage claims shall be separately and subsequently settled and paid following construction. Such provisions include the following:

(a) The requirement of Section 6B.52, Code of Iowa, permitting, for a period of five years subsequent to any initial settlement of construction or maintenance damages, the renegotiation of a settlement for construction or maintenance damages not apparent at the time of any such initial settlement.

(b) The requirement of Section 479A.11, Code of Iowa, which requires that Applicant pay the owner of lands and the owner of crops thereon for all damages caused by entering, using or occupying said lands for these purposes and all damages caused after completion of construction of said pipeline on account of settling of the soil, wash or erosion of the soil along and above the location of said pipeline.

If Applicant declines to pay owner's compensation claim within 30 days, owner may present the claim and supporting material, for a determination of its validity, to either: (1) the county Soil and Water Conservation District representative; or (2) a qualified, independent crop insurance adjuster doing business in the county. Applicant promptly shall compensate owner in the amount determined by the party set forth above. If the party set forth above upholds owner's claim, Applicant shall pay any costs associated with obtaining that determination. If said party denies or reduces owner's claim, Applicant and owner shall pay any such costs equally.

That such condemnation is sought to construct, own, operate and maintain a natural gas pipeline as provided under federal law, including the Natural Gas Act, and the relevant provisions of the Code of Iowa.

That a Commission has been appointed as provided by law for the purpose of appraising and awarding damages which will be caused by said condemnation.
