John Stone asked the Board if they had done any further research on the proposed change of a part of Wildcat & Table Rock Road to a level B status.

Mark Nahra, County Engineer, read a letter he received from Pat Kane at the Department of Transportation stating that DOT maps are not certified. He explained what maps are used for and how they are developed. He also explained the five categories of roads and the differences between maps and that maps are not legal documents. Mr. Nahra stated why he requested the road be considered a Level B road.

Mr. Stone felt all his points he made at the hearing should have been included in the Supervisors' minutes and that a correction of the range number from range 3 to range 4 should be shown.

The County Auditor felt the minutes of that hearing were adequate and that the range number would be corrected when the Supervisors made a decision on the matter.

Eldon Koeneke stated he based his decision on a level B classification on the recommendation of the county engineer.
