Prior to voting on the aforementioned resolution, the Board members each addressed those present. Chairperson Helmrichs stated that the Board was first approached to pass a bond issue for the restoration of the Lake Delhi dam back in September 2010. She felt that the request was not appropriate at that time nor would she have been in favor of passing it without an election. Since then, there has been a lot of work done. The Trustees of the district have stepped up, the District's finances are now open and transparent, and the ownership of the property will soon change hands. After months of research she is now ready to move forward. She did want to make it clear that this is not an "emergency bond" but a bond for an essential county purpose.

Supervisor Madlom stated that there has been a lot of emotion involved over the past year and one-half on both sides of this issue. Over the past 6-8 months, he has tried to separate the emotion from this issue and decide what is best for Delaware County as a whole. He noted the effect the breach has had, and will continue to have, on the valuations within Delaware County as well as the taxes everyone pays. He feels he has done his homework. Taking into consideration everything he has learned and the change in District leadership, he is also ready to move forward. After taking a moment to compose himself, he emotionally stated that he may lose friends over this but will do what he feels is best for Delaware County as a whole.

Supervisor Ries stated that he has always thought this should go to a vote of the people within the county. However, with the deadlines on the state level, he understands that it would not work to wait until May to vote on this. (May 1st is the next available date for a county-wide election).

This being the date and time set for a Public Hearing on, and First Reading of, Proposed Ordinance #36, notice of said hearing having been published in the county's official newspapers on February 28 & 29, 2012, Chairperson Helmrichs opened the hearing at 1:30 pm. The proposed Ordinance #36 was then read aloud as follows:

DELAWARE COUNTY BOARD OF SUPERVISORS
/S/ Shirley Helmrichs, Chairperson
Attest: /S/ Carla K. Becker, Auditor
All Ayes

County Engineer Anthony Bardgett addressed the Board regarding the county's on-hand stock of metal culverts. He solicited quotes from local suppliers for a variety of sizes in the quantities needed to restock the county's supply. Quotes received were as follows:

ILLOWA CULVERT	$47,050.00
CONTECH CULVERT	$49,342.80
METAL CULVERTS	$51,485.20
NORTHERN IOWA CONSTRUCTION	$55,940.20
MIDWESTERN CULVERT	$56,037.40

He recommends awarding the bid to ILLOWA in consideration of their low bid.

Motion made by Madlom, second by Ries and carried to award the quote for restocking the county's metal culvert supply to ILLOWA CULVERT for their low bid of $47,050.00. All Ayes

Mr. Bardgett then addressed the Board regarding the state bid letting for the X21 Paving Project (#FM-C028(78)—55-28) which was held on February 21, 2012. Only one bid was received as follows:

Mathy Construction Co. d/b/a River City Paving $895,362.13

The bid is higher than the estimated cost but oil prices are also higher than they were at the time of the estimate. He does not feel the Board would improve the bid for this project by rejecting and starting over. Oil prices will only continue to increase. He recommends awarding the bid as read.

Motion made by Ries, second by Madlom and carried to accept the bid as read for the X21 Paving Project (#FM-C028(78)—55-28) and award the bid to Mathy Construction d/b/a River City Paving in consideration of their bid of $895,362.13. The late start date for this project is September 4, 2012 with twenty (20) working days allocated for completion. All Ayes

ENGINEER'S REPORT:

265th Bridge Project – The contractor removed the old bridge last week. They will be working on pile driving this week.

Gravel Roads – As the days are starting to warm up, the gravel roads will be going through the yearly transitional period. Depending on the weather, we might start light grading this week. That said, over the next couple of weeks, very little maintenance beyond light grading will take place due to the potential for winter storms. Rock placement will not be for at least four (4) more weeks.

NEXT MEETING

The next regular session of the Board will be on Monday, March 12, 2012 at 1:15 pm at the Supervisors' Office in the courthouse. There is a Regular Session at 3:30 pm today to discuss an agreement between the Delaware County Recreation Center, Delaware County, and the Delaware County Fair Board.

PUBLIC COMMENTS:

Dick Saunders stated that he thought the decision on whether to bond for the dam restoration should be put to a vote of the entire county.

Doug Happel thanked the Board for all the time they have spent on the Lake Delhi issue. He then informed the Board that he will not disappoint them with the amount of money he will spend in the county once the lake is restored.

John Mack apologized to the Board for comments he had made in prior meetings. He stated that 2010 was a very emotional time for him. He commended the Board for not making a decision of this magnitude without first getting all the facts. His comments were reiterated by Dave Fink.

Steve Leonard also commended the Board on demonstrating their good leadership skills, taking the time to become educated in the matter, listening to their constituents and doing what is right for the betterment of the entire county. He stated, as President of the Lake Delhi Board of Trustees, he is looking forward to working with them and establishing a partnership which will carry them into the future.

Bill Lux and Marcheta Cooey thanked the Board for all their time and efforts.

Donna Kunde, on behalf of the Maquoketa Valley School Board, thanked the Board and expressed her appreciation for their efforts to move forward.

There being no further business before the Board, Chairperson Helmrichs asked for a motion to adjourn.

Motion made by Ries, second by Madlom and carried to adjourn the meeting at 2:00 pm. All Ayes

These minutes have been read and approved.

County Engineer Anthony Bardgett outlined in detail the first year of said plan to those present. Motion made by Ries, second by Madlom and carried to set April 16, 2012 at 1:15 pm as the date and time to receive bids on a new Wheel Excavator for the Secondary Roads Department. All Ayes

The County Engineer then addressed the Board regarding a new project he would like them to consider. Altorfer Cat has a program where they will rebuild used motor graders to like-new condition. They also will give a 60 month/6,000 hour warranty on their work which is almost like that on a new machine. Mr. Bardgett would like to have their 2000 Cat 143H rebuilt through this program rather than trading it in for a new machine. He feels by participating in the program, the County would save a significant amount of money since the cost of rebuilding a machine is one third to one half the price of buying new. The entire process will take between 8 and 10 weeks to complete.

Motion made by Madlom, second by Ries and carried to approve the rebuilding of the Secondary Roads 2000 Cat 143H motor grader with Altorfer Cat in consideration of $119,370.00. All Ayes

ENGINEER'S REPORT:

265th Bridge Project – All bridge pilings are now driven. Work will continue on building the falsework framing for the deck and pouring the abutment concrete.

Gravel Roads – Road crews are out hauling rock to soft locations and grading the roads where they can. The recent rains along with the spring thaw have made slow work of repairing the roads. The roads are still within their transitional "healing" period.
