Legal Description of Property: (Attach if necessary) PARCEL 2020-07 IN THE SE¼ OF THE SW¼ OF SECTION 35-T89N-R6W DELAWARE COUNTY, IOWA ACCORDING TO PLAT RECORDED IN BOOK 2020, PAGE 374.

1. **Wells (check one)**
   - ___ There are no known wells situated on this property.
   - ✓ There is a well or wells situated on this property. The type(s), location(s) and legal status are stated below or set forth on an attached separate sheet, as necessary.
2. **Solid Waste Disposal (check one)**
   - ✓ There is no known solid waste disposal site on this property.
   - ___ There is a solid waste disposal site on this property and information related thereto is provided in Attachment #1, attached to this document.
3. **Hazardous Wastes (check one)**
   - ✓ There is no known hazardous waste on this property.
   - ___ There is hazardous waste on this property and information related thereto is provided in Attachment #1, attached to this document.
4. **Underground Storage Tanks (check one)**
   - ✓ There are no known underground storage tanks on this property. (Note exclusions such as small farm and residential motor fuel tanks, most heating oil tanks, cisterns and septic tanks, in instructions.)
   - ___ There is an underground storage tank on this property. The type(s), size(s) and any known substance(s) contained are listed below or on an attached separate sheet, as necessary.

5. **Private Burial Site (check one)**
   - ✓ There are no known private burial sites on this property.
   - ___ There is a private burial site on this property. The location(s) of the site(s) and known identifying information of the decedent(s) is stated below or on an attached separate sheet, as necessary.
6. **Private Sewage Disposal System (check one)**
   - ___ All buildings on this property are served by a public or semi-public sewage disposal system.
   - ___ This transaction does not involve the transfer of any building which has or is required by law to have a sewage disposal system.
   - ✓ There is a building served by private sewage disposal system on this property or a building without any lawful sewage disposal system. A certified inspector's report is attached which documents the condition of the private sewage disposal system and whether any modifications are required to conform to standards adopted by the Department of Natural Resources. A certified inspection report must be accompanied by this form when recording.
   - ___ There is a building served by private sewage disposal system on this property. Weather or other temporary physical conditions prevent the certified inspection of the private sewage disposal system from being conducted. The buyer has executed a binding acknowledgment with the county board of health to conduct a certified inspection of the private sewage disposal system at the earliest practicable time and to be responsible for any required modifications to the private sewage disposal system as identified by the certified inspection. A copy of the binding acknowledgment is attached to this form.
   - ___ There is a building served by private sewage disposal system on this property. The buyer has executed a binding acknowledgment with the county board of health to install a new private sewage disposal system on this property within an agreed upon time period. A copy of the binding acknowledgment is provided with this form.
   - ___ There is a building served by private sewage disposal system on this property. The building to which the sewage disposal system is connected will be demolished without being occupied. The buyer has executed a binding acknowledgment with the county board of health to demolish the building within an agreed upon time period. A copy of the binding acknowledgment is provided with this form. [Exemption #9]
   - ___ This property is exempt from the private sewage disposal inspection requirements pursuant to the following exemption [Note: for exemption #9 use prior check box]: _____.
   - ___ The private sewage disposal system has been installed within the past two years pursuant to permit number _____.

Information required by statements checked above should be provided here or on separate sheets attached hereto:

1- Approximately 20' north of the main shop

I HEREBY DECLARE THAT I HAVE REVIEWED THE INSTRUCTIONS FOR THIS FORM AND THAT THE INFORMATION STATED ABOVE IS TRUE AND CORRECT.

NARRATIVE INSPECTION REPORT
PIECO-Shop Septic System

This is a certified Time of Transfer Inspection for a septic system in Delaware county for this business's shop. There is no basement or bedrooms, just one restroom used by employee's. All the waste water exits by gravity out the north side of shop draining to a dual compartment concrete septic tank. This is the primary treatment onsite- it was at the proper liquid level on the day of inspection. The septic tank has one 24" concrete access riser to the surface. There are no effluent filters on the outlet of the septic tank. The outlet of the septic tank goes to plastic distribution box and 210' linier foot absorption system by gravity, which completes the secondary treatment.

Distance from Septic tank to well is: <100'

CONDITION:

The septic tank was pumped on 06-12-2018 and satisfy's the three year requirement. Normal septic tank cleanings are required in order to keep these solids from flowing out into the absorption system every 3 years. The septic tank is designed for storage of solids in the first compartment and pumped out according to the size and use of each home. The inlet and outlet baffles are plastic and are in good condition. The distribution box was found by a probe after measuring and dug with a mini excavator. A hydraulic load test was calculated and completed, 7.7 GPM for 26 minutes from the outside hose faucet. The distrubution box accepted 200 gallons of the required 200 gallon test. **This inspection was completed at 2179 145th Ave. Manchester, IA on 7-08-2020 and is valid for two years from this date for the transfer of real estate.**

There are six additional pages of pictures included to this report of the system components. Also a map has been drawn as part of this inspection.(Tank capacity was verified by Digital Tank Gauge)

Company Disclaimer *Based* **on what we were able to observe and our experience with on-site waste-water technology, we submit this sanitary sewage disposal system inspection report based on the present condition of the on-site sewage disposal system. Groth Services LLC has not been retained to warrant, guarantee, or certify the proper functioning of the system for any period of time in the future. Because of the numerous factors (usage, soil characteristics, previous failures, etc.) which effect the proper operation of a septic system as well as the inability of our Company to supervise or monitor the use or maintenance of the system, this report shall not be construed as a warranty by our Company that the system will function properly for any particular buyer. Groth Services LLC DISCLAIMS ANY WARRANTY, either expressed or implied, arising from the inspection of the septic system or this report. We are also not ascertaining the impact the system is having on the ground water.**

I have studied the information contained herein and that my assessment is honest, thorough, and to the best of my ability correct. This Narrative report may not be copied without written approval from Corey Groth # 8819
