Terms of the Variance

1. During the first two years of operation this unit will be considered an experimental unit, the dealer, distributor or contractor must visibly inspect the system for proper operation; and collect effluent samples and have tests conducted for CBOD₅ and TSS, every three months. Inspection reports and effluent test results shall be submitted within 15 days of inspection and test to the Office of Zoning and Environmental Health.
2. After the first two years, the Madison County Board of Health may reevaluate inspection and sampling frequency stated in the provision above.
3. Present and future system owners must meet all applicable state and county rule requirements; and that in the event of noncompliance, the Office of Zoning and Environmental Health shall require that adequate steps be taken by the system owner to bring the system into compliance, including replacement of the system with one currently approved under 567 IAC 69.

I hereby attest to my understanding of the terms of this variance.
