Comments: Technician Chris Mershen
All waste water from house drains to
septic system.

The tank is a 750 gal. single compartment
concrete Lister Tank in good condition.

The Distribution Box is a concrete box.
Unable to level laterals leaving box due to
condition of box. One lateral is 4 inch pvc,
the other lateral is 3 inch pvc. The 3 inch
lateral is probing wet and has some surfacing
at the end of the lateral. The 4 inch lateral
was not getting any water and probed dry.

There is a third pipe that comes into the
D-Box. We believe it is an abandoned grey
water line. It runs back along side of the tank.

This is not a guarantee!

This certifies the condition of the
septic system at the time of the inspection.
