TRANSFeree:

Name Stephen R. Spitz and Susan E. Spitz
Address 1867 Nature Court, Winterset, IA 50273
Number and Street or RR City, Town or P.O. State Zip

Address of Property Transferred:
1867 Nature Court, Winterset, IA 50273
Number and Street or RR City, Town or P.O. State Zip

Legal Description of Property: (Attach if necessary) Lot Nine (9) of Copper Fox Estates Subdivision located in the East Half (E 1/2) of the Southeast Quarter (SE 1/4) of Section Seventeen (17), in Township Seventy-six (76) North, Range Twenty-seven (27) West of the 5th P.M., Madison County, Iowa.

1. Wells (check one)

- There are no known wells situated on this property.
- There is a well or wells situated on this property. The type(s), location(s) and legal status are stated below or set forth on an attached separate sheet, as necessary.

2. Solid Waste Disposal (check one)

- There is no known solid waste disposal site on this property.
- There is a solid waste disposal site on this property and information related thereto is provided in Attachment #1, attached to this document.

3. Hazardous Wastes (check one)

- There is no known hazardous waste on this property.
- There is hazardous waste on this property and information related thereto is provided in Attachment #1, attached to this document.

4. Underground Storage Tanks (check one)

- There are no known underground storage tanks on this property. (Note exclusions such as small farm and residential motor fuel tanks, most heating oil tanks, cisterns and septic tanks, in instructions.)
- There is an underground storage tank on this property. The type(s), size(s) and any known substance(s) contained are listed below or on an attached separate sheet, as necessary.

5. Private Burial Site (check one)

- There are no known private burial sites on this property.
- There is a private burial site on this property. The location(s) of the site(s) and known identifying information of the decedent(s) is stated below or on an attached separate sheet, as necessary.

6. Private Sewage Disposal System (check one)

- All buildings on this property are served by a public or semi-public sewage disposal system.
- This transaction does not involve the transfer of any building which has or is required by law to have a sewage disposal system.
- There is a building served by private sewage disposal system on this property or a building without any lawful sewage disposal system. A certified inspector's report is attached which documents the condition of the private sewage disposal system and whether any modifications are required to conform to standards adopted by the Department of Natural Resources. A certified inspection report must be accompanied by this form when recording.
- There is a building served by private sewage disposal system on this property. Weather or other temporary physical conditions prevent the certified inspection of the private sewage disposal system from being conducted. The buyer has executed a binding acknowledgment with the county board of health to conduct a certified inspection of the private sewage disposal system at the earliest practicable time and to be responsible for any required modifications to the private sewage disposal system as identified by the certified inspection. A copy of the binding acknowledgment is attached to this form.
- There is a building served by private sewage disposal system on this property. The buyer has executed a binding acknowledgment with the county board of health to install a new private sewage disposal system on this property within an agreed upon time period. A copy of the binding acknowledgment is provided with this form.
- There is a building served by private sewage disposal system on this property. The building to which the sewage disposal system is connected will be demolished without being occupied. The buyer has executed a binding acknowledgment with the county board of health to demolish the building within an agreed upon time period. A copy of the binding acknowledgment is provided with this form. [Exemption #9]
- This property is exempt from the private sewage disposal inspection requirements pursuant to the following exemption [Note: for exemption #9 use prior check box]: _____.
- The private sewage disposal system has been installed within the past two years pursuant to permit number _____.

Information required by statements checked above should be provided here or on separate sheets attached hereto:

I HEREBY DECLARE THAT I HAVE REVIEWED THE INSTRUCTIONS FOR THIS FORM AND THAT THE INFORMATION STATED ABOVE IS TRUE AND CORRECT.

Inspection report for the property located at 1867 Nature CT in Madison County I have serviced and inspected this system and found a 2000 gallon concrete septic tank in good condition with effluent filter, baffles and center wall intact. The poly box was uncovered, found in good condition, hydraulically loaded and the field accepted the load test. I did notice that a riser on the outlet end of the septic tank was cracked. All water used in the home enters the system. System was operating normally at the time of this inspection

This report is not a guarantee of the future workings of the system. This report reflects what was seen at the time and day of this inspection.

Larry Thomas

Certified Inspector Lic 8809

NEHA Certified Installer

Certified Grease Handler

The findings in this report are not any guarantee of the future performance of this system. The findings are based on observations of the system at the time and day of the inspection only. Thomas Bros. will not be held liable for any hidden or unforeseen damages to this septic system. The inspection has been performed in accordance with the guidelines set forth by the Iowa DNR and in compliance with IAC567-chapter 69. All septic systems require regular maintenance and eventually require repairs or replacement.

Time of Transfer Inspection Worksheet

Other components:

Alarms NO Working? — ; disinfection NO working? —

Control box NO Timers NO inspection ports NO

Other components: _____

Overall condition of the private sewage disposal system

Report system status

Explain (attach additional pages as needed):

Comments: Outlet Riser is Cracked

Site status at conclusion of Time of Transfer inspection:

- Verify that controls are set on the appropriate mode.
- Power is on to all components.
- Revisit all components to verify lids are secure.
- Gather all tools for removal from the site.
- Verify that no sewage is on the ground surface.

Using this worksheet, write a narrative report of the inspection results and attach a site sketch.

This report indicates the condition of the private sewage disposal system at the time of the inspection. It does not guarantee that it will continue to function satisfactorily.
