Legal Description of Property: (Attach if necessary) Parcel F as shown in Plat of Survey filed in Book 2003, Page 4950, and Parcel G as shown in Plat of Survey filed in Book 2008, Page 2771, both in the SW ¼ of the SW ¼ of Section 13, Township 75 North, Range 26 West of the 5th P.M., Madison County, Iowa.

1. Wells (check one)

There are no known wells situated on this property.

There is a well or wells situated on this property. The type(s), location(s) and legal status are stated below or set forth on an attached separate sheet, as necessary.

2. Solid Waste Disposal (check one)

There is no known solid waste disposal site on this property.

There is a solid waste disposal site on this property and information related thereto is provided in Attachment #1, attached to this document.

3. Hazardous Wastes (check one)

There is no known hazardous waste on this property.

There is hazardous waste on this property and information related thereto is provided in Attachment #1, attached to this document.

4. Underground Storage Tanks (check one)

There are no known underground storage tanks on this property. (Note exclusions such as small farm and residential motor fuel tanks, most heating oil tanks, cisterns and septic tanks, in instructions.)

There is an underground storage tank on this property. The type(s), size(s) and any known substance(s) contained are listed below or on an attached separate sheet, as necessary.

5. Private Burial Site (check one)

- There are no known private burial sites on this property.
- There is a private burial site on this property. The location(s) of the site(s) and known identifying information of the decedent(s) is stated below or on an attached separate sheet, as necessary.

6. Private Sewage Disposal System (check one)

- All buildings on this property are served by a public or semi-public sewage disposal system.
- This transaction does not involve the transfer of any building which has or is required by law to have a sewage disposal system.
- There is a building served by private sewage disposal system on this property or a building without any lawful sewage disposal system. A certified inspector's report is attached which documents the condition of the private sewage disposal system and whether any modifications are required to conform to standards adopted by the Department of Natural Resources. A certified inspection report must be accompanied by this form when recording.
- There is a building served by private sewage disposal system on this property. Weather or other temporary physical conditions prevent the certified inspection of the private sewage disposal system from being conducted. The buyer has executed a binding acknowledgment with the county board of health to conduct a certified inspection of the private sewage disposal system at the earliest practicable time and to be responsible for any required modifications to the private sewage disposal system as identified by the certified inspection. A copy of the binding acknowledgment is attached to this form.
- There is a building served by private sewage disposal system on this property. The buyer has executed a binding acknowledgment with the county board of health to install a new private sewage disposal system on this property within an agreed upon time period. A copy of the binding acknowledgment is provided with this form.
- There is a building served by private sewage disposal system on this property. The building to which the sewage disposal system is connected will be demolished without being occupied. The buyer has executed a binding acknowledgment with the county board of health to demolish the building within an agreed upon time period. A copy of the binding acknowledgment is provided with this form. [Exemption #9]
- This property is exempt from the private sewage disposal inspection requirements pursuant to the following exemption [Note: for exemption #9 use prior check box]: _____.
- The private sewage disposal system has been installed within the past two years pursuant to permit number _____.

Information required by statements checked above should be provided here or on separate sheets attached hereto:

I HEREBY DECLARE THAT I HAVE REVIEWED THE INSTRUCTIONS FOR THIS FORM AND THAT THE INFORMATION STATED ABOVE IS TRUE AND CORRECT.

REAL ESTATE SEPTIC INSPECTION

On June 5th, 2018. Anytime Septic Services II did Time of Transfer Real Estate Inspection on septic tank, distribution box, and lateral field at 510 North Cross Street, St. Charles, Iowa 50240. Ronnie Ayers residence.

Septic tank appears to be 1,500 gallon two compartment concrete Lister tank which I pumped and cleaned with clean water. Tank is 24 inches below ground surface with 22 x 24 inch plastic A.K. risers and 22 inch lock down plastic A.K. lids that have Galvanized tubing around both inlet and outlet lids for easy access. On inlet and outlet ends of tank are 4 inch schedule 40 piped tee baffles with drops. On outlet end of tank is a 4 inch round gray colored effluent filter with tee handle inserted into tee baffle that needs cleaned at least once a year. Very important to do. By lifting filter straight upward from baffle and hosing off and reinserting into baffle which I did.

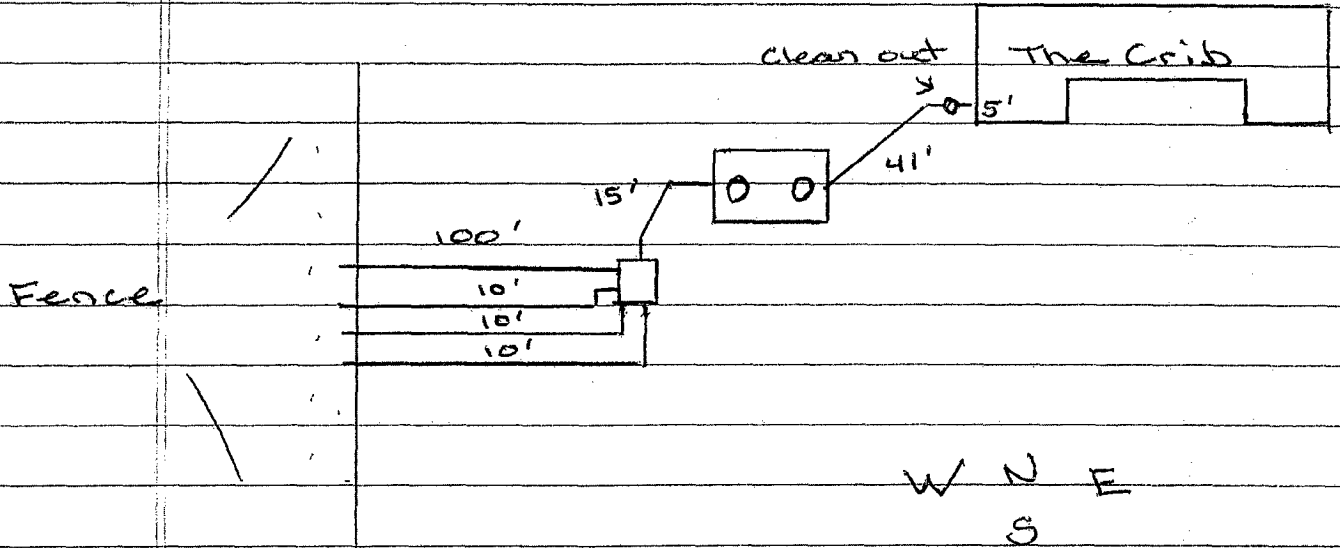

Distribution box is a plastic Tuff Tite box 10 inches below ground surface with concrete surrounding for support. Inside of box is a 4 inch schedule 40 piped tee baffle and 4, 4 inch schedule 35 piped lines leaving box through 4 speed levelers equally distributing effluence's to lateral field box, is in good condition.

Lateral field is on slight sloped hillside and consist of 4 runs of 24 inch plastic infiltrated chambers at 100 feet each totaling 400 feet of laterals that varies 14 to 16 inches below ground surface at the start of laterals and varies 18 to 20 inches below ground surface on the ends with no evidence of any ponding or surfacing above absorption field and no popping sound from probing all 4 laterals.

Attention on distances all 4 laterals extends from lateral number 1 down to lateral number 4, 30 to 36 inches, beyond barbed wire fence on to property the Ayers once owned and have sold.

NOT RESPOSIBLE FOR ANY FAILED SEPTIC SYSTEMS.
